

Oil tanks “WHEEL”

We hereby inform you that the tanks of the “WHEEL” range undergo a modification that involves the introduction of the F4 deep-drawn flange (4xM8 PCD Ø115) and its cover.

The above update will allow the installation of the new adjustable multifunction filters as well as all the return filters from the suitable sizing that will in any case always be ordered separately as an accessory supplied.

The old codes are placed at the end of the series until the stocks are completely exhausted. The transition times will therefore vary depending on the model.

ADJUSTABLE MULTIFUNCTION RETURN FILTER
